PRIMARY Dental Benefit Table 2021

PRIMARY SELECT Dental Benefit Table 2021

Dental Benefits

Dental benefits are paid at the Bonitas Dental Tariff (BDT).

Dental benefits are subject to managed care protocols and managed care interventions which may include the requirement of treatment plans and/or radiographs prior to benefit application.

Scheme Exclusions apply to dental benefits.

In the event of a dispute, the registered Rules of the Scheme will prevail.

Pre-authorisation*

Hospitalisation and Dentures must be pre-authorised.

Procedures and treatments not pre-authorised will not attract a benefit.

Penalties do not apply to emergency hospital admission.

Co-payment: Primary and Primary Select Options

On the *Primary* and *Primary Select* options a co-payment is levied on the hospital account.

Specific facilities may be contractually excluded by the Scheme and will incur a further 30% co-payment.

DSP Network: Primary and Primary Select Options

Benefits payable on the *Primary* and *Primary Select* options are subject to the use of a Designated Service Provider (DSP) on the DENIS Dental Network.

Out-of-Network Emergency Consultation

There is a benefit for *one* out-of-network emergency consultation (tariff code 8104) per beneficiary per year on the *Primary* and *Primary Select* options.

The following treatment is covered when charged with code 8104: extractions (codes 8201 & 8202 – max of 2 in total); a pulpotomy (8307 – max of 2) or a pulpectomy (8132 – max of 2).

Bonitas Primary Select Hospital Network

Members on the *Primary Select* option must use a hospital within the Bonitas Primary Select Hospital Network.

Should a member on the *Primary Select* option make use of a non-network hospital for an elective procedure, a 30% co-payment will be applicable on the hospital account.
